

Integrated Long Term Support Needs – Before and After Integrated Supports

This is a visual representation of a particular individual’s long term supports “before” – when all support was provided through the disability system and the parents, and “after” when the Integrated Support Star was applied to the individuals support needs and life.

Everyone uses a variety of resources and supports to get through their day-to-day routines and everyday lives. The Long Term Support Needs Template can be used to visualize the supports an individual currently receives, figure out needed where supports may be needed, or plan a weekly schedule.

INSTRUCTIONS

Using the color key below, shade in each time slot with the type of support utilized. **Tip:** Use the supports you listed in your **Integrated Supports Star Worksheet** to help you fill out your schedule.

Personal Assets & Strengths	Color the space in light blue if the individual spent the time alone .
Relationship Based Primary caregiver	Color in the space darker purple if the individual was supported by the primary caregiver.
Relationship Based	Color in the space light purple if the individual was supported by person(s) that they know (ie: a family member, friend, neighbor, worker friend).
Technology	Color in the space pink if the individual used technology as a support.
Community Based	Color in the space dark blue if the individual was supported by community members (ie: coworker, business staff, congregation member).
Eligibility Based	Color in the space green if the individual was supported using a formal service (ie: residential supports, PCA, community integration, day habilitation).
