

Ohio Parent to Parent (P2P)

Are you feeling overwhelmed or isolated because of your child's needs? Do you want to talk with another parent who has similar experiences?

Ohio P2P can connect you! No parent should feel alone. Ever!

What is Ohio Parent to Parent?

Ohio P2P is a statewide matching program that matches parents, family members, or caregivers of a person with a disability or special healthcare need. Our program is unique because we match families with experienced, trained, volunteer support parents. Ohio P2P helps match families with similar experiences and backgrounds.

Who are the Ohio P2P Staff?

Ohio P2P staff are family members of people with disabilities/special healthcare needs.

Who are the Support Parents?

Support Parents have lived experiences and are trained using the national P2P training materials. Support Parents will listen and provide support through encouragement and empowerment.

Who are the Referred Parents?

Referred Parents are any caregiver or family member who would like to connect with another person for support. Some families request a connection for support with: dealing with a new diagnosis, facing challenges your family is experiencing, navigating life, or working through transitional times.

We Believe:

The support of another parent holds great power and can help build both strength and resilience.

This project is supported by funding from the Jack H. Rubinstein Foundation
